

PROJECT CHARTER

Project Title	Wakefit's North India (Delhi NCR) Offline Retail Expansion — A Hub-and-Spoke Rollout Strategy	Project Manager	Learning Team 06
Project Start Date	23 July 2026	Project End Date	15 September 2026
Project Sponsor	Daljeet Singh, Process Excellence Manager, Wakefit	Project Sponsor Contact	daljeet.singh@wakefit.co

BUSINESS NEED

Wakefit Innovations Ltd. went public in December 2025, and a significant share of the capital raised was earmarked for offline retail expansion — a pan-India plan targeting 117 new stores by FY28. Delhi NCR stands out as a natural regional hub: it already has Wakefit's densest northern store cluster and sits next to the company's only North India factory, making it a logical hub. However, the surrounding markets it must now expand into — Rajasthan, Uttar Pradesh (Lucknow), Punjab, and Himachal Pradesh (currently untouched) — vary widely in how established Wakefit's presence already is, meaning a one-size-fits-all rollout would be inefficient. Compounding this, competition in the same NCR market is intensifying, with IKEA opening new stores and large-format centres on a timeline that overlaps directly with Wakefit's own planned rollout. This project focuses on an estimated 20-25 store subset of Wakefit's national plan — the North India/Delhi NCR region's proportional share — applying WBS, scheduling, PERT/CPM, and risk management to help sequence this regional expansion before the competitive window narrows. (Full supporting figures — capital allocation, store targets, and financial detail — are provided in the Financials and Risk sections below.)

PROJECT SCOPE (IN-SCOPE)	OUT OF SCOPE (NOT IN-SCOPE)
- Map Wakefit's Delhi NCR hub (Sonipat plant + ~20 NCR stores) to spoke markets (Jaipur, Lucknow, Punjab, greenfield Himachal) - Build a WBS, schedule & Responsibility Matrix for an estimated 20-25 stores — the region's proportional share of the pan-India 117-store FY27-28 plan - Develop a Risk Register and PERT/CPM-based critical path analysis - Recommend a sequencing approach, factoring IKEA's Gurugram (2026)/Noida (2028) timeline as a competitive trigger	- Actual store construction, leasing, or real estate negotiation - Company-wide financial modelling, valuation, or investment analysis - Vendor/procurement decisions and HR/staffing execution - Markets outside the Delhi NCR hub-and-spoke cluster (i.e., the rest of the pan-India 117-store plan) - Implementation of recommendations (advisory/academic scope only)

DELIVERABLES	RISKS & ISSUES	ASSUMPTIONS / DEPENDENCIES
- Project Charter - WBS & Responsibility Matrix - Schedule, resource plan, budget estimate - PERT/CPM network diagram & Critical Path - Risk Register & Probability-Impact Matrix - Final report & presentation (M5/M6)	- Conflicting EBITDA/PAT figures across RHP, RoC filings and company disclosures (e.g., FY24 EBITDA reported as both ₹65.9 Cr and ₹34.9 Cr) — mitigated by citing source and definition wherever financials are used - FY26 PAT (₹189 Cr) is inflated by a one-off ~₹98 Cr deferred-tax gain — mitigated by using adjusted/operating figures for trend analysis - North India POD/INHP logistics locations are not publicly disclosed — mitigated by validating hub assumptions with the industry mentor - IKEA's Gurugram (2026)/Noida (2028) timing could shift Wakefit's own sequencing — to be monitored through the semester - The 20-25 store regional estimate is the team's own proportional calculation, not an RHP-disclosed figure — flagged explicitly wherever used	- Industry mentor (Daljeet Singh, Wakefit) remains available for periodic guidance through the semester - RHP-disclosed pan-India plans (117 stores, FY27-28 phasing) remain directionally accurate; updated post-listing guidance (~80 net adds FY27) is used where it supersedes the RHP - Faculty-approved milestone schedule (23 July - 15 September 2026) will not change - Secondary data (RoC filings, brokerage RHP notes) supplements mentor input where direct access is limited

KEY SUPPORTING FIGURES (RHP-DISCLOSED)

IPO: ₹1,288.89 Cr raised (15 Dec 2025), incl. ₹377.18 Cr fresh issue, of which ~₹161 Cr funds existing-store leases, ~₹108 Cr marketing, ~₹31 Cr capex for 117 new stores pan-India (67 in FY27, 50 in FY28), ~₹15 Cr machinery. Network: 125 COCO stores (Sep 2025) growing toward the FY27-28 target; Delhi NCR already has ~20 stores vs. Himachal's zero. The team's 20-25 store regional estimate is a proportional share (~20% of the pan-India 117) based on Delhi NCR's existing ~16% network share — not an RHP-disclosed regional split. Competitor trigger: IKEA's Gurugram centre opens 2026, Noida 2028.

FINANCIALS (PROJECT ENGAGEMENT BUDGET — AS AN OUTSOURCED ADVISORY ASSIGNMENT)		
Cost Head	Description	Estimated Cost (INR)
Professional Fees	4-member analyst team, part-time engagement across the project duration	1,00,000
Primary Research & Site Visits	Delhi NCR store visits, on-ground observation, mentor meetings	8,000
Market & Industry Data Access	Brokerage/RHP research notes, industry reports where not freely available	5,000
Documentation & Reporting	WBS/scheduling tools, presentation design, final report production	5,000
Tools & Software	Scheduling/PERT-CPM & collaboration tools (if paid tier needed)	6,000
Contingency (~7%)	Buffer for unplanned research or coordination costs	8,000
Total Estimated Budget		1,32,000

MILESTONE SCHEDULE		PROJECT TEAM		APPROVAL COMMITTEE
Milestone	Target Date	Name	Role	Role: Name Sponsor: Daljeet Singh (Wakefit)
M2 - Charter	6 August 2026	Learning Team 06	Project Manager	
M3 - WBS/Planning	18 August 2026	Ankesh Kumar	Operations Head	
M4 - Sched. & Risk	29 August 2026	Juhi Varshney	Marketing Head	
M5 - Exec. & Monitor	8 September 2026	Mayank Jain	Finance Head	
M6 - Final Review	15 September 2026
